

# ***Mix-6***

*Stereo Mixer with FX Send*

## **Introduction**

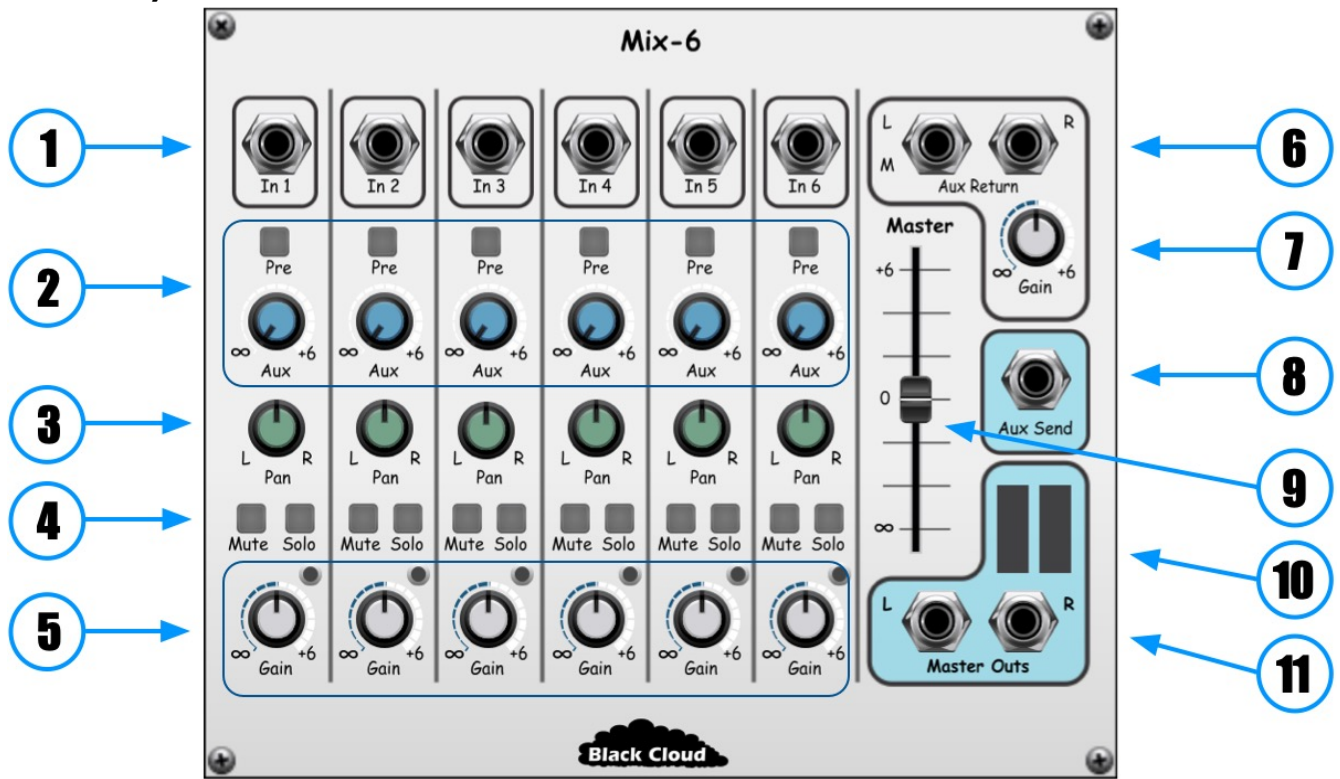

***Mix-6*** is a six-channel mono-to-stereo mixer with a convenient Aux Send/Return. Each channel can be sent to the Aux either pre-fader or post fader:

Each channel has a mono input and a pan control to position the sound in the stereo out. In addition to Mute and Solo buttons, each channel has a volume dial that can provide an extra 6dB if needed, and a Signal/Clip indicator.

Each channel has an Aux Send dial, also with an extra 6dB for weak signals, and an option for pre-fader send, useful for things like effect-only sounds and parallel compression.

The Master Section features a long throw output fader, stereo output, and helpful meters. There's also a mono Aux Send and stereo Aux Return with its own gain control.

# Knobs, Buttons and Sliders

<p><b>1 Inputs</b> Mono channel inputs.</p>	<p><b>7 Aux Return Gain</b> Level control for Aux Return ,with 6dB boost.</p>
<p><b>2 Aux Sends</b> Per-channel post-fader Aux Sends with 6dB boost and pre-fader buttons.</p>	<p><b>8 Aux Send Output</b> This mono output sums the six Aux Sends from the Channels.</p>
<p><b>3 Pan</b> Per-channel Pan controls.</p>	<p><b>9 Master Output Fader</b> A single long-throw fader to control the output level of the mixer.</p>
<p><b>4 Mute/Solo Buttons</b> Per-channel mute and solo function.</p>	<p><b>10 Master Output Meters</b> Stereo level meters.</p>
<p><b>5 Gain dials</b> Per-channel level controls with 6dB boost.</p>	<p><b>11 Stereo Master Outputs</b> Dual outputs for left and right.</p>
<p><b>6 Aux Return Inputs</b> Stereo Aux Return, with a mono option (left input only).</p>
